## Description

This newly built 119 m2 house in Felanitx has 3 bedrooms with fitted wardrobes, 2 bathrooms, kitchen and living room as well as a spacious patio with jacuzzi. One of the bedrooms also has a balcony. The windows and shutters are double-glazed and made of high-quality aluminium, the floor is made of ceramic tiles and the heating is aerothermic, air conditioning hot / cold and electric radiators. Thanks to the modern, open-plan layout, the rooms are bright and well laid out, allowing you to live entirely on the ground floor if desired.
Felanitx is mainly known for its excellent wine production and the cultivation of capers, but with its central location in the East of the island it also offers very good access to a variety of beaches and coves along the coast. Felanitx is one of the larger towns on Mallorca and has everything you need for your daily needs: shopping, sports facilities, schools, health centre and restaurants.
Just as you are fascinated by history, you want to be part of a story yourself - part of the story of this newly built house in Felanitx. Be the one who comes home here for the first time. Be the first to have a barbecue with your friends in this garden. And the first to count the stars in the night sky, sitting in the Jacuzzi with a glass of wine in your hand. May we show you this new home, completed in 2023?
